

Newfield Construction, Inc. 225 Newfield Avenue Hartford, CT 06106 860.953.1477 newfieldconstruction.com

2016 Recently Completed Projects

John F. Kennedy High School - Waterbury

Newfield was retained to provide John F. Kennedy High School with a new two-story 30,000 square foot building in order to expand the academic and athletic programs. The new building proved especially challenging due to the occupied campus throughout construction. Due to the site's steep grading, a second story glass-enclosed foot bridge was installed in order to connect the existing school building to the new two-story building. Site improvements for the high school included new tennis courts, parking areas, driveways, storm water management systems and a state-of-the-art synthetic football/softball field.

Recent Awards

Chris Archer, LEED AP, received the Distinguished Merritt Award from the Architecture Construction Engineering (ACE) Mentor Program of Connecticut for his outstanding contributions to the program and for his commitment to improving the future of the design and construction industry workforce.

Projects in Progress

Capewell Lofts - Hartford

Renovation of Hartford's 1903 Capewell Horse Nail Factory into housing and commercial office space.

ACES Whitney High School - Hamden

As Construction Manager, beginning in the schematic design phase, Newfield recently finished constructing the new Cutler Hall Dormitory for Loomis Chaffee School. The new dorm, located in the heart of the campus, is 25,000 square feet and consists of single and double occupancy rooms for 50 students as well as 4 faculty apartments, a large common area for students to socialize and study as well as a common kitchen for collaborative cooking.

Community Health Resources, Center for Health and Wellness - Manchester

In an effort to consolidate their leased spaces, Community Health Resources brought Newfield on to construct a new 30,000 square foot outpatient mental health clinic, laboratory and office building. The new building includes counseling and treatment areas, offices, a cafeteria and conference facilities.

Renovation as new to combine Whitney High Schools East, West and North Facilities totaling approximately 159,400sf.

State of Connecticut, Department of Transportation, Maintenance of Way Building - New Haven
New 28,000sf building housing offices, supervisor quarters, a kitchen and conference areas.

Housatonic Community College, Lafayette Hall - Bridgeport
New 4-story, 47,000sf addition and renovation to 35,000sf to support academic and student services programs.

Capitol Region Education Council, Two Rivers High School - Bloomfield
New 184,000sf magnet school with four strands of learning; Fresh Water Ecology & Marine Biology, Technology & Robotics, Environmental Science and Engineering & Green Technology.

Newtown High School, Auditorium - Newtown
Renovation of the 1,000 seat auditorium to be ADA accessible and include a state-of-the-art theater venue for high quality drama, music and other performances.

Emanuel Lutheran Church - Hartford
Renovation and 1,000sf addition including ADA accessibility and a new elevator tower.

Hartford Magnet Trinity College Academy - Hartford

The Hartford Magnet Middle School teamed with Trinity College to expand its program from 6th through 12th grade. This expansion, now named Hartford Magnet Trinity College Academy, allows students an early college experience with 120 students per grade level. Located within Hartford's Learning Corridor, Newfield acted as Construction Manager for this project which included a new 50,000 square foot academic addition and renovations.
