Newfield Construction is celebrating 35 Years with The Construction Institute!

Loomis Chaffee School, Campus Center and Dining Hall - Windsor

Construction has begun at the Campus Center and Dining Hall at Loomis Chaffee School in Windsor, CT. The 52,000 square foot project includes renovations and additions to the existing building which is comprised of a 1913 two-story dining hall and a 1969 one-story addition. Improvements will include a new institutional kitchen, a food-court style servery and two new dining rooms; the historic dining hall will be renovated to accommodate the student lounge.

Recent Project Wins

Smalley Academy, New Britain, CT

Renovate-as-new the approximately 82,000sf existing school with 24,000sf of new construction.

Rocky Hill Intermediate School, Rocky Hill, CT

New 79,150sf Intermediate School to house fourth and fifth grades.

Community Health Center, Medical Professional Center, Stamford, CT

Renovation of an existing 17,000sf office building into a primary care facility.

Projects in Progress

ACES Whitney High School - Hamden

Renovate-as-new to combine Whitney High Schools East, West and North Facilities totaling approximately 140,000sf.

State of Connecticut, Department of Transportation, Maintenance of Way Building - New Haven

The construction of the new Maintenance of Way Building for the State of Connecticut, Department of Transportation in New Haven, CT is complete. The new 28,000 square foot building has two main functions. One of those functions being that the building will house offices, supervisor quarters, locker rooms, kitchen and vending areas and conference areas. The building's other purpose is to house crew shops for carpentry, plumbing, electrical, signage, radios, as well as materials storage. The project also includes parking for over 260 vehicles as well as creation of an off-site outdoor materials storage area. One of the main construction challenges was relocating an existing through street from the new parking lot to the middle of the project site. The critical interface with the utility companies and the coordination with other contractors, who were constructing other buildings on adjacent parcels, in the rail yard were key factors in the success of the project.

Weaver High School - Hartford

Weaver High School is moving forward! Phase 1 of demolition and abatement is complete while bids for Phase 2 construction are being

East Lyme Dental Clinic - East Lyme

17,000sf renovation of a current office building into a primary care facility.

Newtown High School, Auditorium - Newtown

Renovation of the 1,000 seat auditorium to be ADA accessible and include a state-of-the-art theater venue for high quality drama, music and other performances.

Loomis Chaffee School, Campus Center and Dining Hall - Windsor

35,000sf renovation to the two-story historic dining hall with a 17,000sf one-story addition.

We invite you to contact us with any questions about prospective or current construction needs.

received now. The renovated high school will create a space for grades 9-12 in three, themed programs: High School, Inc., Journalism and Media Academy, and R.J. Kinsella Magnet School of Performing Arts. Built in 1974, the 370,000-square-foot high school was initially designed for 2,000 students. The renovated facility will now house a student body of 900.

Welcome Back David Girardini!

Newfield Construction is pleased to welcome back **David Girardini** as Senior Project Manager. Dave has extensive experience on large and small projects for a variety of building types, including numerous projects for the educational, municipal and private sector. These projects include pre-construction planning as well as construction management and general contracting methods of delivery. He excels in pre-construction planning, drawing on his diverse experience and applying the lessons learned to facilitate the delivery of a successful project. He has a broad knowledge of the construction industry having spent a career in construction spanning 25 years.

New Hires

Michael Duane, Assoc. AIA joins Newfield Construction's staff as MEP Coordinator / BIM Manager. Mike has over 15 years of experience with MEP coordination and BIM management. With both architectural and construction experience, he has extensive knowledge of the process from start to finish. With a Bachelor's Degree in Liberal Studies with a Minor in Architectural Design from Southern Connecticut State University, his creation of virtual BIM models for new projects is beneficial in understanding the level of detail required for each project and will provide enough data for adequate visualization.

Jennifer DeConti joins the firm as Marketing Coordinator. Jen will work with our Marketing Specialist to support our Vice President of Business Development in spearheading all marketing aspects. She brings 5 years of experience in the construction industry with her to Newfield Construction.

Newfield Construction welcomes **Enea Cibuku** to the team as Project Engineer. Enea recently graduated Central Connecticut State University with a Bachelor of Science in Construction Management. Some of his daily activities are submittal and RFI management, meeting minutes, daily field reports, and change management.

Jose Rendon joins the firm as our Equal Employment Opportunity & Payroll Compliance Manager for the Weaver High School project. As the Compliance Manager, Jose will monitor and enforce the City of Hartford's EEO/MWBE Implementation Program, monitor monthly trade contractor payment application submissions and provide payment application assistance to MWBE contractor's as needed.

Benjamin Chasse joins Newfield Construction's team as a summer intern. Ben is going into his sophomore year at Wentworth Institute of Technology with a focus in Construction Management. In 2016, Ben worked closely with Chris Archer, LEED AP, Project Engineer, during the Architecture Construction Engineering (ACE) Mentorship Program in Southington, Connecticut where he received the ACE Connecticut Scholarship through the program. He helps in setting up new projects as well as assists the estimating team

with daily activities.
